

ALLAN SCHORE
CURRICULUM VITAE
DEPARTMENT OF PSYCHIATRY AND BIOBEHAVIORAL SCIENCES
UNIVERSITY OF CALIFORNIA AT LOS ANGELES
DAVID GEFLEN SCHOOL OF MEDICINE

Address: 9817 Sylvania Avenue
Northridge, CA 91324

Website: allanschore.com

E-mail: anschore@aol.com
aschore@ucla.edu

Phone: (818) 886-4368

UPCOMING PRESENTATIONS

- February 2010 **NYU Silver School of Social Work, New York, NY**
All-day workshop, "A dialogue with Allan and Judith Schore."
- March 2010 **Conference, The Therapeutic Action of Psychodynamic Psychotherapy:
Current Concepts of Cure, Boston, MA**
Address, "Advances in regulation theory: An interpersonal-neurobiological model
of psychotherapeutic change."
- April 2010 **UCLA Lifespan Conference, The Wholeness of Mind, Brain, Body, and
Human-Relatedness, Los Angeles, CA**
Address, "Therapeutic enactments: working in the right brain window of affect
tolerance."
Commentary on video with Pat Ogden and Phillip Bromberg (on tape) "Safe But
Not Too Safe: "The Inevitability of Therapeutic Enactments in Attachment-
Oriented Psychotherapy."
- April 2010 **1st International Conference, Pediatric Psychological Trauma in Infants
and Young Children from Illness, Injury and Medical Intervention,
University of Southern California**
Address, "Neurobiological development of young children: Neuroscience and early
trauma."

PRESENTATIONS - 2009

- October 2009 **Ben Franklin Institute Summit for Clinical Excellence, San Diego, CA**
All-day workshop: "The science of the art of psychotherapy."
- August 2009 **EMDR International Association Conference, Atlanta, GA**
Address & workshop: "Right brain affect regulation: an essential mechanism of
development, trauma, dissociation, and psychotherapy."
- August 2009 **American Psychological Association 2009 Annual Conference, Toronto
Canada**
Plenary Address, "The paradigm shift: the right brain and the relational
unconscious."
- April 2009 **Department of Psychiatry & Behavioral Sciences, Albert Einstein College
of Medicine, Beth Israel Hospital, New York, NY**
Grand Rounds Presentation, "The paradigm shift: the right brain and the relational
unconscious."

- March 2009 **Australian Childhood Foundation, Melbourne, Australia**
Two-day workshop, "The neurobiology of childhood trauma and attachment."
- March 2009 **Australian Childhood Foundation, "A Seminar with Allan Schore," Melbourne, Australia**
All-day workshop, "The neurobiology of childhood trauma and attachment."
- March 2009 **Australian Childhood Foundation, "A Seminar with Allan Schore," Perth, Australia**
All-day workshop, "The neurobiology of childhood trauma and attachment."
- March 2009 **Australian Childhood Foundation, "A Seminar with Allan Schore," Brisbane, Australia**
All-day workshop, "The neurobiology of childhood trauma and attachment."
- March 2009 **Australian Childhood Foundation, "A Seminar with Allan Schore," Adelaide, Australia**
All-day workshop, "The neurobiology of childhood trauma and attachment."
- March 2009 **Australian Childhood Foundation, "A Seminar with Allan Schore," Sydney, Australia**
All-day workshop, "The neurobiology of childhood trauma and attachment."
- March 2009 **UCLA Lifespan Conference, Current Approaches to the Treatment of Trauma, Los Angeles, CA**
Address, "Working in the right brain: a regulation model of clinical expertise for treatment of attachment trauma."
- February 2009 **American Association for Psychoanalysis in Clinical Social Work 11th National Conference, New York, NY.**
Address: "Regulation theory: integrating attachment and neurobiology into a model of the psychotherapy change process."

PRESENTATIONS - 2008

- November 2008 **25th Anniversary Conference of the International Society for the Study of Trauma and Dissociation, Chicago, IL**
Plenary address, "Right brain affect regulation: an essential mechanism of development, trauma, dissociation and psychotherapy"
- November 2008 **Second Annual Conference, Affect Regulation: Development, Trauma, and Treatment of the Brain-Mind-Body, Mt. Sinai Medical Center, New York, NY**
Keynote address, "A regulation model of clinical expertise: working with attachment trauma and unconscious affect"
- October 2008 **2008 Conference of the Ordre des Psychologues du Quebec, Current and Future Trends in Psychology, Quebec Psychological Association, Montreal, Canada**
Plenary address, "The paradigm shift: the right brain and the relational unconscious" Workshop, "Right brain affect regulation: an essential mechanism of psychotherapy"
- October 2008 **Marion Woodman Jung and Neuroscience Conference, Brain, Mind, and Body: Trauma, Neurobiology, and the Healing Relationship, University of Western Ontario, London, Ontario, Canada**
Invited presentation, "Implications of current neuroscience and attachment theory for clinical models of dissociation"

- October 2008 **Ben Franklin Institute, Tempe, AZ**
Workshop, "Affect regulation and the repair of the self"
- October 2008 **University of New Mexico, Department of Psychiatry, Albuquerque, NM**
Grand Rounds, "The paradigm shift: the right brain and the relational unconscious"
- September 2008 **Crisis and Trauma Center, Danderyd Hospital, Stockholm, Sweden**
Two Day workshop, "Right brain attachment and affect regulation: a central mechanism of psychodynamic psychotherapy"
- September 2008 **Institute of Education, Stockholm, Sweden**
Address, "Affect regulation and the repair of the self: Applications to the change process of psychotherapy"
- August 2008 **Austin in Connection, University of Texas**
Address: "The paradigm shift: the right brain and the relational unconscious."
- May 2008 **California Association of Marital and Family Therapists 44th Annual Conference, Controversy: Current Debates Within a Changing Profession, Los Angeles, CA**
Workshop: "Right brain attachment and affect regulation: Central mechanisms of psychotherapeutic change"
- April 2008 **Loma Linda University Center Conference, Strengthening Families in the 21st Century: Health, Wholeness, and Faith, Loma Linda, CA**
Plenary Address: "Recent scientific advances in attachment theory: relevance for strengthening families"
- April 2008 **Division of Psychoanalysis (39) of the American Psychological Association 28th Annual Spring Meeting, Conference, Knowing, Not-Knowing & Sort-of-Knowing, New York, NY**
Scientific Awardee Address: "The paradigm shift: the right brain and the relational unconscious"
Co presenter with Wilma S. Bucci, PhD, James L. Fosshage, PhD. and Sandra Hershberg, MD on panel: "How do we come to know and how do we change what we know? The role of implicit and explicit learning in contemporary psychoanalysis. Presentation, "The right brain implicit self lies at the core of psychoanalysis"
- March 2008 **2nd Annual Therapeutic and Alcohol/Drug Interventions Conference, Las Vegas, NV**
Keynote address and Workshop: "The personality disorders through the lens of attachment theory and the neurobiologic development of the self: a clinical integration"
- March 2008 **UCLA Lifespan Conference, Adult Attachment in Clinical Context: Applications of the Adult Attachment Interview, Los Angeles, CA**
Address: "Integrating attachment, affect regulation and neurobiology: Implications for research and treatment"
Preconference workshop, "Regulation theory and the paradigm shift: from conscious cognition to unconscious affect"

PRESENTATIONS - 2007

- October 2007 **Conference, Affect Regulation: Development, Trauma, and Treatment of the Brain-Mind-Body, Mt. Sinai Medical Center, New York, NY**
Co-presenter with Ed Tronick PhD, Phillip Bromberg PhD, Beatrice Beebe PhD, Joe Lichtenberg MD, and Pat Ogden PhD. Address, "Right brain affect regulation: An essential mechanism of development, dissociation, and psychotherapy"
- October 2007 **Group Psychotherapy Association of Southern California, Los Angeles, CA**
Recipient of VIDA Award. Keynote address, "Understanding affect dysregulation and disorders of the self: Facilitating Affect regulation and the repair of the self"
- October 2007 **Santa Barbara Psychological Association, Santa Barbara CA**
Workshop, "Right brain affect regulation: an essential mechanism of psychotherapy"
- September 2007 **"The Science of the Art of Psychotherapy: Psychotherapy for the 21st Century." Helsinki, Finland**
Two Day workshop, Right brain attachment and affect regulation: a central mechanism of psychodynamic psychotherapy"
- September 2007 **Genoa Science Festival, Genoa Italy**
Plenary Address: "The interpersonal neurobiological origins of curiosity: An essential human activity"
- September 2007 **CONFER Seminars on Borderline Personality Disorders, Brunei Gallery, London, England**
Lecture: "Borderline personality disorder: a maturational failure of the right brain"
- September 2007 **CONFER Trauma Conference, London, England**
Plenary Address "Why the right brain is dominant in working with trauma and the body: The primacy of affect" and "Attachment trauma and the developing right brain: origins of pathological dissociation"
- April 2007 **The Therapeutic Action of Psychodynamic Psychotherapy: Current Concepts of Cure, Harvard Medical School, Boston, MA**
Invited Address "Right brain attachment and affect regulation: a central mechanism of psychodynamic psychotherapy"
- February 2007 **R. Cassidy Seminars, "The Science of the Art of Psychotherapy: Psychotherapy for the 21st Century." Los Angeles, CA**
Two Day workshop, Right brain attachment and affect regulation: a central mechanism of psychodynamic psychotherapy"
- January 2007 **Fifth Annual Conference, Children in Trauma: Frontiers of Trauma Treatment, California State University, Chico, CA**
Two Day workshop "Recent advances in neuroscience, attachment theory, and traumatology: Implications for psychotherapists and related professions"

PRESENTATIONS – 2006

- November 2006 **International Society of the Study of Dissociation 23rd Annual International Fall Conference, Los Angeles, CA**
Panel with Robert Scaer MD, Steven Gold PhD, and Carol Low PsyD, "Developmental issues and dysregulation: Implications for dissociation as the perceptual and symptomatic state that defines trauma" Half day workshop with Pat Ogden, PhD, "Applications of advances in attachment theory and neuroscience to the study of pathological dissociation: Etiology, diagnosis, treatment"

- October 2006 **International Institute of Object Relations Therapy, Washington, DC**
Three Day Intensive Workshop, "Recent advances in neuropsychanalysis: 'Impact on clinical practice.'" Lectures, "Contributions of regulation theory to developmental models of early object relations," "The right brain is dominant in psychoanalytic treatment."
- October 2006 **Westchester Institute for Training in Psychoanalysis and Psychotherapy, Mont Kisco, NY**
Two Day Intensive Workshop
- July 2006 **Smith College, Department of Social Work, Northhampton, MA**
Three Day Workshop with Judith Schore, PhD.
- July 2006 **Jung on the Hudson Summer Seminar, "Memory, Mind, and Myth: How We Heal," Rhinebeck, NY**
Co-presenter with Joseph Cambray PhD, Jeffrey Satinover MD, Jean Knox PhD, Tina Stromsted, PhD, and Margaret, Wilkinson, PhD. Three Day Workshop, "Recent advances in Neuroscience, Attachment and Trauma theory: Implications for Psychotherapists"
- July 2006 **7th International Neuro-Psychoanalysis Congress, "Love and Lust in Attachment: Neuro-Psychoanalytic Perspective in Object Relations," Los Angeles CA**
Co-presenter with Jaak Panksepp, PhD, Stephen Suomi, PhD, and Helen Fisher PhD, Plenary Address, "Right brain attachment regulation: a fundamental domain of neuropsychanalysis"
- July 2006 **PsyBC presents "Allan Schore: The Science of the Art of Psychotherapy", Mount Sinai Hospital, New York, NY**
Two Day Workshop
- July 2006 **4th International Biosynthesis Conference, "Building the Bridge Between Body, Mind, and Spirit," Lisbon, Portugal**
Co-presenter with Antonio Damasio, M.D., David Boadella, Ph.D., Silvia Boadella, Ph.D. Keynote Address, "The science of the art of psychotherapy."
- May 2006 **CONFER presents Professor Allan Schore, University of London, London, England**
Two Day Intensive Workshop, "The repair of the self: Psychotherapy for the 21st century."
- May 2006 **Anna Freud Centre, London England**
Consultation with staff on infant-parent psychotherapy
- May 2006 **EEG Spectrum International Clinical Exchange Conference, Woodland Hills, CA**
Keynote Address and workshop
- May 2006 **R. Cassidy Seminars, The Science of the Art of Psychotherapy: Psychotherapy for the 21st Century. San Francisco, CA**
Two day workshop
- April 2006 **Chicago Association of Psychoanalytic Psychology, Illinois Association of Clinical Social Workers, and the School of Social Science Administration at the University of Chicago, University of Chicago, Chicago, IL**
One Day Workshop "The right hemisphere is dominant in clinical work: implications of recent neuroscience, attachment theory, and traumatology for psychotherapists"

- April 2006 **Southeast Michigan Trauma & Dissociation Study Group Detroit, MI**
Co-presenter with Henry Krystal, M.D. One Day Workshop, "Recent Advances in Neuroscience, Attachment Theory, And traumatology: Implications for psychotherapists"
- April 2006 **University of Kansas, Alderson Auditorium in the Student Union, Lawrence, Kansas**
Two Day Workshop "The science of the art of psychotherapy."
- March 2006 **California State Psychological Association, Annual Meeting, San Francisco, CA**
Keynote Address, "Recent Advances in Neuroscience, Attachment Theory, and Traumatology: Implications for Psychologists" Chair, Panels on Regulation Theory and Neurobiology of Psychopathogenesis, Psychotherapy, and Developmental Neurobiology
- March 2006 **5th Annual Attachment Conference, "The Embodied Mind: Integration of the body, brain, and mind in clinical practice." UCLA Extension and Lifespan Learning, Sponsors, University of California at Los Angeles, Los Angeles, CA.**
Co-presenter with Stephen Porges, Ph.D., Ed Tronick, Ph.D., Daniel Siegel, M.D., Onno van der Hart, Ph.D., Pat Ogden, Ph.D., Ruth Lanius, M.D., & Bessel van der Kolk, M.D. Address, "Attachment trauma and the developing right brain: origins of pathological dissociation."
- January 2006 **Reiss Davis Child Study Center, Los Angeles, CA**
Fourth Annual Edna Reiss-Sophie Greenberg Award Address: Recent advances in neuroscience, attachment theory, and traumatology: Implications for clinicians
- January 2006 **University of Southern California, Department of Psychiatry, Los Angeles, CA**
Lecture to Psychiatry Residency Program
- January 2006 **Fielding Graduate Institute Psychology Winter Program, Santa Barbara, CA**
Keynote Address. "The science of the art of psychotherapy."
- January 2006 **R. Cassidy Seminars, Neurobiology and Attachment Theory In Psychotherapy: Psychotherapy for the 21st Century. Seattle Center, Seattle, WA**
Two day workshop

PRESENTATIONS - 2005

- December 2005 **Oregon Health Sciences University, Portland, OR**
Presentation to Pediatrics staff
- December 2005 **Oregon Psychoanalytic Center, Portland, OR**
Invited Address "The roles of attachment trauma and early brain development in the etiology of borderline personality disorder."
- December 2005 **Oregon State Psychological Association Meeting, Portland, OR**
One Day Workshop "Recent advances in neuroscience, attachment theory, and traumatology: Implications for psychotherapists"
- October 2005 **13th Annual Santa Fe Symposia, New England Educational Institute, Sante Fe, NM**
3 Day Program "Affect Regulation and the Repair of the Self"

- October 2005 **Minnesota State Psychological Association and the Twin Cities Society of Psychoanalytic Studies Chapter of Division 39 of the American Psychological Association, Minneapolis, MN**
Two Day Workshop, Hardwired to Connect: The Developing Brain & Implications for Psychotherapeutic Treatment."
- October 2005 **Dean Medical Center, Madison, WI**
Two Day Workshop, "Affect Regulation and the Repair of the Self"
- September 2005 **Jung Institute of San Francisco, Conference, "Soul's Body: Archetypal Defenses, Affect Regulation and Healing From Trauma," San Francisco, CA**
Co-presenter with Donald Kalsched, Ph.D, Joan Chodorow, Ph.D., Tina Stromstead, Ph.D., And Marion Woodman, Ph.D. Address, "Implications of recent advances in affective neuroscience for Jungian psychotherapists"
- September 2005 **WPF Counselling and Psychotherapy, London, England**
Invited Lecture, "Neurobiology of transference-countertransference: 'Recent advances and clinical implications."
- September 2005 **CONFER presents Professor Allan Schore, London, England**
Two Day Intensive workshop, The repair of the self: Psychotherapy for the 21st century.
- September 2005 **Danish Association of Child and Adolescent Psychiatry, Copenhagen, Denmark**
Two Day Workshop, "The emotional and neurological development of children and the impact on clinical practice".
- September 2005 **University Clinic, Department of Psychology, University of Copenhagen, Copenhagen, Denmark**
Half Day workshop, "Relational neurobiology of borderline personality disorders: Etiology and treatment."
- August 2005 **26th Annual Association for Avian Veterinarians Conference, Monterey, CA**
Presentation, "Behavioral and physiological effects of trauma on psittacines" Co-author with G.A. Bradshaw and P.G. Greene Linden
- July 2005 **The "Elephants Alive" Workshop, University of Witwatersrand, Johannesburg, South Africa**
Invited co-presentation with Gay Bradshaw, Ph.D., "Implications from neurosciences for conservation biology and elephant culling."
- July 2005 **Santa Barbara Graduate Institute, Santa Barbara, CA**
Two Day Workshop, "Recent advances in neuroscience and attachment theory: Relevance to prenatal, perinatal, and somatic psychology."
- May 2005 **Spanish Society of Psychotraumatology and Traumatic Stress Annual Meeting, Madrid, Spain**
Two Day Workshop, "Critical role of the right hemisphere in traumatic attachment, PTSD, and psychotherapeutic treatment."
- May 2005 **Ventura County Chapter of the California Association of Marriage and Family Therapists Conference, "The Effect of Trauma and Attachment Upon the Brain: Integrating Neuroscience and Clinical Practice," Ventura, CA**
Co-presenter with Linda Chapman, Ph.D. One Day Workshop, "The right hemisphere is dominant in clinical work: implications of recent neuroscience, attachment theory, and traumatology for psychotherapists."

- May 2005 **Harvard Medical School and the Department of Psychiatry at Cambridge Hospital, Conference, "Attachment and Related Disorders," Boston, MA**
Co-presenter with Karlen Lyons-Ruth, Ph.D., Peter Fonagy, Ph.D, Bessel van der kolk, M.D. Judith Lewis Herman, M.D., Miriam Steele, Ph.D. Keynote Address, "Recent advances in the neurobiology of attachment: Implications for intervention and prevention."
- May 2005 **University of Western Ontario and Imaging Laboratories, Robarts Research Institute, London, London, Ontario, Canada**
Grand Rounds, "The roles of attachment trauma and early brain development in the etiology of borderline personality disorder"
- May 2005 **Boulder Institute for Psychotherapy and Research, Boulder, CO**
Invited Address, "The roles of disorganized attachment, affect dysregulation and right brain development in the etiology of borderline personality disorder."
- May 2005 **The Denver Institute for Psychoanalysis and The Denver Psychoanalytic Society, Denver, CO**
Ninth Rene Spitz Memorial Lecture One Day Symposium, "Affect Regulation and the Repair of the Self."
- April 2005 **UCLA Department of Ecology and Evolutionary Biology, Los Angeles, CA**
Invited presentation, "Elephant breakdown: Enduring impact of early social trauma on animals and humans"
- March 2005 **4th Annual Attachment Conference, "How people Change: How Psychodynamic Psychotherapy Changes the Mind, the Brain, and the Body." UCLA Extension and Lifespan Learning, Sponsors, University of California at Los Angeles, Los Angeles, CA**
Co-presenter with Dan Stern M.D., Berry Brazelton, M.D., Karlen Lyons-Ruth, Ph.D., Daniel Siegel, M.D., Alexander Morgan, M.D., Jeremy Nahum, M.D., Nadia Bruschweiler-Stern, Ph.D., and James Grotstein, M.D. Address, "Changes in mind, brain, and body in various psychotherapeutic contexts"
- February 2005 **American Neuropsychiatric Association, 2005 Annual Meeting, Sheraton Bal Harbor Resort, Miami, FL**
Co-Presenter, ANPA Scientific Program Committee Symposium, the Neuropsychiatry of Personality and its Disorders. "The roles of disorganized attachment, affect dysregulation, and right brain development in the etiology of borderline personality disorder."
- February 2005 **12th Annual Florida Symposia, New England Educational Institute, Marco Island, FL**
Week-long Program "Affect regulation and the repair of the self"
- February 2005 **International Society for the Study of Dissociation Conference, "The Dissociative Self: Integrating Neuroscience and Clinical Practice. Mind and Body in the Treatment of Psychological Trauma," Torrance, CA**
Co-Presenter with Richard Chefelz, M.D. "The origins of the dissociative self: Enduring impact of early attachment trauma on the developing right brain"
- January 2005 **University of California at Los Angeles Doctoral Program in Clinical Psychology, Los Angeles, CA**
Invited Lecture to course on Psychodynamic Psychotherapy: "Affect regulation and the repair of the self."

January-June 2005

UCLA/San Fernando Valley Psychiatry Training Program, Veterans Administration Hospital, Sepulveda, CA

Academic year-long seminar on the integration of attachment theory, psychoanalysis, neurobiology, and clinical psychiatry to third year psychiatric residents.

PRESENTATIONS - 2004

October 2004

12th Annual Santa Fe Symposia, New England Educational Institute, Santa Fe, NM

Week-long Program "Affect regulation and the repair of the self"

October 2004

UCLA-Santa Monica Medical Center Stuart House/Rape Treatment Center, Santa Monica, CA

Address "Dysregulation of the right brain: A fundamental mechanism of 'traumatic attachment and the psychopathogenesis of posttraumatic stress disorder"

October 2004

National Institute for the Psychotherapies Training Institute, New York, NY

Workshop. "The enduring impact of attachment trauma on the developing right brain: Disorders of self-regulation"

October 2004

Association of Autonomous Psychoanalytic Institutes, 2004 Annual Meeting, "The Interplay of Implicit and Explicit Processes in Psychoanalysis," New York, NY

Co-presenter with Jim Fosshage, Ph.D, Wilma Bucci, Ph.D, and Steve Knoblauch, Ph.D. Plenary Address. "The essential role of the right brain in the implicit self: Development, psychopathogenesis, and psychotherapy"

September 2004

Los Angeles Chapter of the California Association of Marriage and Family Therapists, Los Angeles, CA

Invited Address "Recent advances in attachment theory and neuroscience: implications for psychotherapy."

September 2004

All About Psychotherapy <http://www.allaboutpsychotherapy.com/>

An interview with Dr. Allan N. Schore

September 2004

GGZ Drenthe Trauma Conference, "The Broken Self: Theory, Research and Treatment of Chronic Traumatization", Assen, Netherlands

Co-presenter with Ellert Nijenhuis, Ph.D., Christine Courtois, Ph.D., Martin Sack, M.D., Johan den Boer, M.D., and Thomas Ehling, M.D. Plenary Address. "Regulation of the right brain: a fundamental mechanism of attachment, trauma, and psychotherapy." Workshop: "The right hemisphere is dominant in clinical work: implications of recent neuroscience for psychotherapists"

August 2004

Third International Conference on the Dialogical Self, Warsaw, Poland

Co-presenter with Leslie Greenberg, Ph.D., Hubert Hermans, Ph.D., Jaan Valsiner Ph.D., and Jeffrey Arnett, Ph.D. Keynote Address. "Dialogue between neurobiological research on the development of the self and the theory of the dialogical self."

July 2004

WSB 98.5 FM, National Public Radio, Atlanta, GA

Radio Interview on "Choosing Life: Addictions, Mental Health and Recovery," Suzi Marsh, Host.

- July 2004 **Santa Barbara Graduate Institute, Santa Barbara, CA**
Graduation address Two day workshop with faculty and students: "Recent advances in neuroscience and attachment theory: Relevance to prenatal, perinatal, and somatic psychology."
- July 2004 **21st Annual Cape Cod Summer Symposia, New England Educational Institute, Cape Cod, MA**
Week-long Program "Affect regulation and the repair of the self"
- June 2004 **Annual Meeting, Society for Advanced Brain Analysis, Stermann-Kaiser Imaging Santa Catalina Island, CA**
Keynote Address: "The right brain, attachment experiences, and the origin of self-regulation."
- May 2004 **International Society on Infant Studies Annual Conference, Chicago, IL**
Symposium, "Neural mechanisms of attachment and early self regulation". Co-presenter with Jaak Panksepp, Ph.D., Stephen J. Suomi, Ph.D., Don Tucker, Ph.D., and Jennifer Ablow, Ph.D. Presentation: "Dysregulation of the right brain: A fundamental mechanism of traumatic attachment and the psychopathogenesis of posttraumatic stress disorder."
- May 2004 **Loyola University of Chicago Stritch School of Medicine, Neuroscience Program and Pediatric Behavioral Divisions, Chicago IL**
Grand Rounds Presentation, "Developmental neurobiology and psychopathogenesis: The impact of early relational trauma on the developmental trajectory of the right brain."
- May 2004 **American Psychiatric Association Annual Meeting, New York, NY**
Symposium, Psychotherapy and Psychopharmacology: Dissolving the mind-brain barrier APA Symposium, "Current Concepts of the Neurobiology of the Self", Co-presenter with Joseph LeDoux, Ph.D., Julian Keenan, Ph.D., and Todd Feinberg, M.D. Presentation: "Affect regulation, the right hemisphere, and the self."
- March 2004 **3rd Annual Attachment Conference, Trauma, Traumatic Attachments and Borderline Personality: Implications for Clinical Treatment. UCLA Extension and Lifespan Learning, Sponsors, University of California at Los Angeles, Los Angeles, CA.**
Co-presenter with Bessel van der Kolk, M.D., Karlen Lyons-Ruth, Ph.D., Howard Steele, Ph.D., Francine Shapiro, Ph.D., James Masterson, M.D., and Alicia Lieberman, Ph.D. Address, "Advances in regulation theory: The role of attachment trauma and right brain development in the etiology and treatment of borderline personality disorder."
- February 2004 **4th Annual James Grotstein Conference, "I Feel Therefore I Am!: The Growing Importance of Affects for Psychoanalysis." University of California at Los Angeles, Los Angeles, CA.**
Co-presenter with Antonio Damasio, M.D., Peter Fonagy, Ph.D., and James Grotstein, M.D. Address, "Affect regulation and the right brain: linking neuroscience to psychoanalysis, the science of unconscious processes"
- February 2004 **Futurehealth Winter Brain Meeting, Palm Springs, CA**
Keynote Address: "Attachment, the right brain, and the origin of self-regulation." Workshop: "The enduring impact of attachment trauma on the developing right brain: Disorders of self-regulation."
- January 2004 **University of California at Los Angeles Graduate Program in Clinical Psychology, Los Angeles, CA**
Invited Lecture to course on Psychodynamic Psychotherapy: "Affect regulation and The repair of the self."

January-June 2004

UCLA/San Fernando Valley Psychiatry Training Program, Veterans Administration Hospital, Sepulveda, CA

Academic year-long seminar on the integration of attachment theory, psychoanalysis, neurobiology, and clinical psychiatry to third year psychiatric residents.

PRESENTATIONS - 2003

November 2003

Wright Institute, the Alameda County Psychological Association, and the Masterson Institute Alumni Association, Oakland, CA

All day workshop: "Attachment, Neuroscience, and Treatment: A Clinician's Guide to Understanding and Using Affect Regulation."

September 2003

National Meeting of the Targeted Capacity Expansion-Prevention Early Intervention Grantee Group, National Center for Mental Health Promotion and Youth Violence Prevention, Substance Abuse and Mental Health Services Administration, Department of Health and Human Services, Washington, DC

Plenary Address "Implications of current advances in developmental neuroscience for early intervention programs." Consultant to SAMHSA on early relational trauma.

September 2003

Family and Addiction Conferences and Educational Seminars, Las Vegas, NV

Keynote Address: "Affect regulation and the repair of the self." Workshop: "The enduring impact of relational trauma on the developing right brain." Co-presentation: "Clinical applications of recent advances in the science of psychotherapy", with Dr. James Masterson

July 2003

Santa Barbara Graduate Institute, Santa Barbara, CA

Two day workshop, "Developmental psychoneurobiology: attachment and the development of the emotional brain."

June 2003

Northwest Alliance for Psychoanalytic Studies / Seattle Psychoanalytic Society and Institute / Hogeness Auditorium, University of Washington, Seattle, WA

All day workshop "Affect regulation and the repair of the self." Lectures: "The right hemisphere is dominant in clinical work: implications of recent neuroscience for psychotherapists" and "Very recent advances in trauma and neuroscience: bringing the body more deeply into psychoanalysis."

May 2003

Conference, "Psychological Trauma: Maturation Processes and Therapeutic Interventions", Boston University School of Medicine, Boston, MA

Co-presenter with Joseph LeDoux, M.D., Frank Putnam, M.D., Ellert Nijenhuis, Ph.D., Alicia Lieberman, Ph.D., Robert Lifton, Ph.D., and Bessel van der Kolk, M.D.. Plenary Address: "Regulation of the right brain: a fundamental mechanism of attachment, trauma, dissociation, and psychotherapy."

May 2003

MacLean Hospital, Department of Psychiatry, Harvard Medical School, Belmont, MA

Major Teachers of Psychotherapy Program – Invited Lecture, "Recent advances in attachment theory and neuroscience: implications for clinical models of the psychotherapy process" Grand Rounds, "The right brain is dominant in clinical work"

- May 2003 **American Psychiatric Association 156th Annual Meeting, San Francisco, CA**
Course: "Self-regulation: The brain and the power of the healing relationships".
Co-presenter with Daniel Siegel, M.D.
- May 2003 **University of California at Los Angeles Graduate Program in Clinical Psychology, Los Angeles, CA**
Invited Lecture to course on Psychodynamic psychotherapy, "Recent advances in attachment theory and neuroscience: implications for psychotherapy."
- April 2003 **American Psychological Association, Division of Psychoanalysis (39) Annual Spring Meeting, Minneapolis, MN**
Invited Panel: "Trauma and neuroscience: bringing the body more deeply into psychoanalysis." Co-presenter with Stephen Seligman, D.M.H. Invited Panel: "On the Early Origins of Hopelessness and Hope: Clinical Contributions from Developmental Neuropsychanalysis." Co-presenter with Stephen Seligman, D.M.H. Presentation, "Enduring Impact of Early Relational Trauma on the Right Brain, the Biological Substrate of the Human Unconscious." Panel, Chair: "Attachment and the Developing Brain: Implications for Trauma, Creativity and Psychotherapy," with Paula Thompson Ph.D., Sondra Goldstein, Ph.D., and Susan Thau, Ph.D.
- April 2003 **Institute of Child Development, University of Minnesota, Minneapolis, MN**
Invited meeting with faculty and students, Alan Sroufe Ph.D., Chair.
- April 2003 **R. Cassidy Seminars, Chicago, IL**
All day workshop "Affect regulation and the repair of the self."
- March 2003 **R. Cassidy Seminars, Sacramento, CA**
All day workshop "Affect regulation and the repair of the self."
- March 2003 **Conference, New Developments in Attachment Theory: Applications to Clinical Practice. UCLA Extension and Lifespan Learning, Sponsors, University of California at Los Angeles, Los Angeles, CA**
Co-presenter with Daniel Stern, M.D., Daniel Siegel, M.D., Edward Tronick, Ph.D., Beatrice Beebe, Ph.D., and Sir Richard Bowlby. Address, "The right hemisphere is dominant in clinical work: implications of recent neuroscience for psychotherapists."
- February 2003 **Pediatric Therapy Network, Fourth Annual Research Conference, San Pedro, CA**
Featured Speaker, "The developmental neurobiology of social communication."
- January 2003 **R. Cassidy Seminars, Los Angeles, CA**
All day workshop "Affect regulation and the repair of the self."
- January-June 2003 **UCLA/San Fernando Valley Psychiatry Training Program, Veterans Administration Hospital, Sepulveda, CA**
Academic year-long seminar on the integration of attachment theory, psychoanalysis, neurobiology, and clinical psychiatry to third year psychiatric residents.

PRESENTATIONS 1991-2002

available on allanschore.com

PUBLICATIONS

Human nature and the environment of evolutionary adaptiveness

Editor, along with Darcia Narvaez, Jaak Panksepp, & Tracy Gleason. Book in preparation for Oxford University Press.

The Science of the art of psychotherapy

Book in preparation for Norton Interpersonal Neurobiology Series

Affect, attunement and attachment in children's post-divorce adjustment: Forging coherent understandings in Family Law

Family Law Journal, in press.

Clinical social work and regulation theory: Implications of neurobiological models of attachment

Chapter with J.R. Schore in S. Bennett & J.K. Nelson (Eds.), Adult attachment within clinical social work practice. New York: Springer, in press.

The right brain implicit self lies at the core of psychoanalysis

Psychoanalytic Dialogues, in press.

A neurobiological perspective of the work of Berry Brazelton

Chapter in Nurturing families of young children. Building on the legacy of T. Berry Brazelton. New York: Blackwell Scientific, in press.

Synopsis, The impact of childhood trauma: psychobiological sequelae in adults

Chapter in E. Vermetten, R. Lanius, C. Pain, The impact of early life trauma on health and disease. New York: Cambridge University Press, in press.

The right brain implicit self: A central mechanism of the psychotherapy change process.

Chapter in J. Petrucelli (Ed.), Knowing, not-knowing and sort of knowing: Psychoanalysis and the experience of uncertainty. London, Karnac Books, in press.

Relational trauma and the developing right brain: the neurobiology of broken attachment bonds

Chapter in T. Baradon (Ed.), Relational trauma in infancy. London: Routledge, in press.

Right brain affect regulation: an essential mechanism of development, trauma, dissociation, and psychotherapy

Chapter in D. Fosha, D. Siegel, & M. Solomon (Eds.), The Healing power of emotion: Affective neuroscience, development, & clinical practice (pp. 112-144). New York: W.W. Norton, 2009.

Relational trauma and the developing right brain.

Annals of the New York Academy of Sciences, 2009, 1159, 189-203.

La regolazione degli affetti e la riparazione del se.

Roberto Speciale-Bagliacca, Translator. Rome: Astrolabio, 2008.

La regulation affective et la reparation du soi.

Gilles de Lisle, Translator. Montreal: Les Editions du CIG, 2008.

Dysregulation of the right brain: a fundamental mechanism of traumatic attachment and the psychopathogenesis of posttraumatic stress disorder

To be published in Italian as a chapter on post-Traumatic Stress Disorders in Childhood and Adolescence. V. Ardino, Editor.

Modern attachment theory: the central role of affect regulation in development and treatment.

Co-author with Judith R. Schore, Clinical Social Work Journal, 2008, 36, 9-20.

Review of Awakening the Dreamer: Clinical Journeys by Philip M. Bromberg

Psychoanalytic Dialogues, 2007, 17, 753-767.

Special Section: Psychoanalytic research: Progress and Process. Notes from Allan Schore's Groups in Developmental Affective Neuroscience and Clinical Practice.

Psychologist Psychoanalyst, 2007, XXVII, No. 3, 6-15.

Affektregulation und die Reorganisation des Selbst

2007, Eva Rass, Translator. Klett-Cotta, Stuttgart.

How elephants are opening doors: developmental neuroethology, attachment and social context.

Co-author with G.A. Bradshaw, Ethology, 2007, 113, 426-436.

Special Section: Psychoanalytic research: Progress and Process. Notes from Allan Schore's Groups in Developmental Affective Neuroscience and Clinical Practice.

Psychologist Psychoanalyst, 2007, XXVII, No. 1, 12-14.

A neuropsychanalytic perspective of development and psychotherapy

Energy & Character, 2006, 35, 18-30

Special Section: Psychoanalytic Research: Progress and Process. Notes from Allan Schore's Groups in Developmental Affective Neuroscience and Clinical Practice.

Psychologist Psychoanalyst, 2006, XXVI, No. 2, 13-21.

Neuropsychanalysis

Chapter published in Edinburgh International Encyclopedia of Psychoanalysis, R.M. Skelton (ed.), Edinburgh University Press, 2006.

Right brain attachment dynamics: an essential mechanism of psychotherapy

The California Psychologist, 2006, 39, 6-8.

Foreword for Margaret Wilkinson's Coming Into Mind

Routledge, 2006, pp. vii-xii.

Behavioral and physiological effects of trauma on psittacines

Co-author with G.A. Bradshaw and P.G. Greene Linden
Proceedings of American Avian Veterinerian Conference, August 2005

Special Section: Psychoanalytic Research: Progress and Process. Notes from Allan Schore's Groups in Developmental Affective Neuroscience and Clinical Practice.

Psychologist Psychoanalyst, 2005, XXV, No. 4, 18-24.

A neuropsychanalytic viewpoint: Commentary on paper by Steven H. Knoblauch

Psychoanalytic Dialogues, 2005, 15, 829-854.

Developmental affective neuroscience describes mechanisms at the core of dynamic systems theory

Behavioral and Brain Sciences, 2005, 28, 217-218.

Menti in formazione: attaccamento, cervello che si auto-organizza e psicoterapia psicoanalitica orientata evolutivamente

Psicoterapia, 2005, 10, 209-232.

Attachment, affect regulation and the developing right brain: Linking developmental neuroscience to pediatrics

Pediatrics in Review, 2005, 26, 204-211.

Special Section: Psychoanalytic Research: Progress and Process. Notes from Allan Schore's Groups in Developmental Affective Neuroscience and Clinical Practice.

Psychologist Psychoanalyst, 2005, XXV, No. 2, 6-12.

Elephant breakdown. Social trauma: early disruption of attachment can affect the physiology, behaviour and culture of animals and humans over generations Co-author with Isabel Gay Bradshaw, Oregon State University, Janine Brown, Smithsonian and National Zoo, Joyce H. Poole and Cynthia J. Moss, Amboselli Elephant Project, Kenya..
Nature, 2005, 433, 807.

Special Section: Psychoanalytic Research: Progress and Process Notes from Allan Schore's Groups in Developmental Affective Neuroscience and Clinical Practice.
Psychologist Psychoanalyst, 2005, XXV, No. 1, 19-27.

Graduation address, Santa Barbara Graduate Institute.
Journal of Prenatal & Perinatal Psychology and Health, 2004, 19, 107-114.

Commentary on "Dissociation: a developmental psychobiological perspective" by A. Panzer and M. Viljoen
South African Psychiatry Review, 2004, 7, 16-17.

Special Section: Psychoanalytic Research: Progress and Process Notes from Allan Schore's Groups in Developmental Affective Neuroscience and Clinical Practice.
Psychologist Psychoanalyst, 2004, XXIV, No. 1, 14-22.

Special Section: Psychoanalytic Research: Progress and Process Notes from Allan Schore's Groups in Developmental Affective Neuroscience and Clinical Practice.
Psychologist Psychoanalyst, 2003, XXIII, No. 4, 9-16.

The human unconscious: the development of the right brain and its role in early emotional life.
In Emotional Developmental in Psychoanalysis, Attachment Theory, and Neuroscience: Creating Connections, V. Green (ed.), Brunner-Routledge, 2003, pp. 23-54.

Report on Children and Civil Society, "Hardwired to Connect: The New Scientific Case for Authoritative Communities," Dartmouth Medical School, the YMCA of the USA, and Institute of American Values
Member, Commission on Children at Risk. Published by Institute for American Values, 2003.
<http://www.americanvalues.org/html/hardwired.html>

Affect Regulation and the Repair of the Self.
W.W. Norton, 2003.

Affect Dysregulation and Disorders of the Self.
W.W. Norton, 2003.

The Seventh Annual John Bowlby Memorial Lecture.
In Revolutionary Connections: Psychotherapy and Neuroscience, J. Corrigan and H. Wilkinson (eds.), Karnac, 2003, pp. 7-51.

The neurobiology of mother-infant attachment communications.
In Handbuch der kleinkindforschung [Handbook of Research in Early Childhood], H. Keller (ed.), Huber, 2003.

Early relational trauma, disorganized attachment, and the development of a predisposition to violence
In Healing Trauma: Attachment, Mind, Body, and Brain, D. Siegel & M. Solomon (eds.), W.W. Norton, 2003, pp. 107-167.

Implications of recent advances in developmental neuroscience and attachment theory.
Moderator, Audiotape and publication of the American Academy of Pediatrics
AAP Pediatric UPDATE, 2003.

Introduction / guest editorial to the Special Issue on trauma.
Journal of Analytical Psychology, 2003, 48, iii-viii.

Advances in neuropsychanalysis, attachment theory, and trauma research: implications for self psychology.

Psychoanalytic Inquiry, 2002, 22, 433-484.

The neurobiology of attachment and early personality organization.

Journal of Prenatal & Perinatal Psychology and Health, 2002, 16, 249-263.

Clinical implications of a psychoneurobiological model of projective identification.

In Primitive Mental States Volume II: Psychobiological and Psychoanalytic Perspectives on Early Trauma and Personality Development, S. Alhanati (ed.), Karnac, 2002, pp. 1-65.

Dysregulation of the right brain: A fundamental mechanism of traumatic attachment and the psychopathogenesis of posttraumatic stress disorder.

Australian and New Zealand Journal of Psychiatry, 2002, 36, 9-30.

(Chosen as the most outstanding article of the year published in the journal).

Neurobiology and psychoanalysis: Convergent findings on the subject of projective identification.

In Being Alive: Building on the Work of Anne Alvarez, J. Edwards (ed.), Brunner-Routledge, 2001, pp. 57-74.

The right brain as the neurobiological substratum of Freud's dynamic unconscious.

In The Psychoanalytic Century: Freud's Legacy for the Future, D. Scharff (ed.), Other Press, 2001, pp. 61-88.

Special Section: The relevance of developmental neuropsychanalysis to the clinical models of Sandor Ferenczi and Wilfred Bion: Introduction.

Psychologist Psychoanalyst, 2001, XXI, No. 1, 12-13.

Plenary Address: Parent-infant communications and the neurobiology of emotional development.

In Proceedings of Head Start's Fifth National Research Conference, Developmental and contextual transitions of children and families. implications for research, policy, and practice, 2001, pp. 49-73.

The Seventh Annual John Bowlby Memorial Lecture, "Minds in the making: attachment, the self-organizing brain, and developmentally-oriented psychoanalytic psychotherapy."

British Journal of Psychotherapy, 2001, 17, 299-328.

Contributions from the Decade of the Brain to infant mental health: An overview (Special Edition Editor).

Infant Mental Health Journal, 2001, 22, 1-6.

Effects of a secure attachment relationship on right brain development, affect regulation, and infant mental health.

Infant Mental Health Journal, 2001, 22, 7-66.

The effects of early relational trauma on right brain development, affect regulation, and infant mental health.

Infant Mental Health Journal, 2001, 22, 201-269.

Attachment, the right brain, and empathic processes within the therapeutic alliance.

Psychologist Psychoanalyst, 2000, XX, No. 4, 8-11.

Special Section: Attachment research and psychoanalytic process.

Psychologist Psychoanalyst, 2000, XX, No. 3, p. 20.

The self-organization of the right brain and the neurobiology of emotional development.

In Emotion, Development, and Self-organization, Dynamic Systems Approaches to Emotional Development, M. Lewis & I. Granic (eds.), Cambridge University Press, 2000, pp. 155-185.

Attachment and the regulation of the right brain.

Attachment & Human Development, 2000, 2, 23-47.

Foreword to reissue of Attachment and Loss, Vol. 1: Attachment, by John Bowlby.
Basic Books, 2000.

The right brain, the right mind, and psychoanalysis. On-line at the website for Neuro-Psychoanalysis,
<http://www.neuro-psa.com/schore.htm> 1999.

Invited commentary on "Freud's affect theory in the light of contemporary neuroscience."
Neuro-Psychoanalysis, 1999, 1, 115-128.

Early shame experiences and infant brain development.
In Shame: Interpersonal Behaviour, Psychopathology and Culture, P. Gilbert & B. Andrews (eds.).
Oxford University Press, 1998, pp. 57-77.

The experience-dependent maturation of an evaluative system in the cortex.
In Brain and Values: Is a Biological Science of Values Possible, K. H. Pribram (ed.). Erlbaum, 1998, pp. 337-358.

Early organization of the nonlinear right brain and development of a predisposition to psychiatric disorders.
Development and Psychopathology, 1997, 9, 595-631.

Interdisciplinary developmental research as a source of clinical models.
In The Neurobiological and Developmental Basis for Psychotherapeutic Intervention, M. Moskowitz, C. Monk, C. Kaye, & S. Ellman (eds). Jason Aronson, 1997, pp. 1-71.

A century after Freud's Project for a Scientific Psychology- Is a rapprochement between psychoanalysis and neurobiology at hand?
Journal of the American Psychoanalytic Association, 1997, 45, 807-839.

The experience-dependent maturation of a regulatory system in the orbitofrontal cortex and the origin of developmental psychopathology.
Development and Psychopathology, 1996, 8, 59-87.

Affect Regulation and the Origin of the Self: The Neurobiology of Emotional Development.
Erlbaum, 1994.

Early superego development: The emergence of shame and narcissistic affect regulation in the practicing period.
Psychoanalysis and Contemporary Thought, 1991, 14, 187-250

RESEARCH ACTIVITIES

Neural correlates and the mother-infant attachment relationships in mothers with borderline personality disorder and healthy controls.

Functional magnetic resonance imaging study of the neurobiology of attachment. Collaborator with Ruth A. Lanius, Greg Moran, Dave Pederson, Heidi Bailey, Jim Neurfeld, et al., University of Western Ontario and Imaging Research Laboratories, Robarts Research Institute, London, Ontario, Canada

The effects of trauma-related cues on pain processing in PTSD: a fMRI investigation

Collaborator with Maria J. Sanderson, Nicholas J. Coupland, Raymond, Kao, Peter C. Williamson, P.C., Kathy Hegadoren, Maria Densmore, Todd Stevens, and Ruth Lanius. University of Western Ontario and Imaging Research Laboratories, Robarts Research Institute, London, Ontario, Canada

Is borderline personality disorder a particularly right hemispheric disorder? Asymmetry of P3a.

Collaborator with Russell Meares, Dmitriy Melkonian, Evian Gordon, and Leanne Williams Department of Psychological Medicine and School of Psychology, University of Sydney, and Brain Dynamics Centre, Westmead Hospital, Westmead, Australia
